Nicus FMDB™ for IT Asset Management seamlessly integrates Total Cost of Ownership (TCO) data into ServiceNow® ITAM workflows, providing IT and business leaders with accurate, actionable, and defensible asset financial insights.

### Improve Decision-Making with Trusted TCO Data

Gain precise cost visibility across every phase of an asset's lifecycle—from acquisition to retirement—with finance-approved TCO insights.

- Eliminate guesswork by replacing incomplete or outdated financial data
- Capture all asset costs including labor, depreciation and maintenance
- Allocate costs accurately by asset category and lifecycle phase
- View expense breakdowns in the ServiceNow ITAM TCO dashboard
- Track TCO trends over time to optimize future investment decisions

### Drive Reductions in Capex and Opex

Achieve full asset cost visibility to reduce waste and optimize spending. FMDB for IT Asset Management connects financial data to asset lifecycles for confident, cost-saving decisions.

- Actively and accurately manage costs aligned with assets so when you optimize, you know the true cost leaving your environment
- Optimize maintenance, renewal, and disposal decisions
- Make informed rationalization decisions with comprehensive TCO
- Assign and manage cost through each phase of the lifecycle of an asset
- Measure savings from removing unwanted assets and technical debt

> " *Nicus Software's FMDB for ITAM extends our reach well beyond where we can go alone and represents the legacy and goals of the Now Platform.*"
>
> *— Erica Volini, executive vice president, worldwide industries, partners, and go-to-market, ServiceNow*

# FMDB for IT Asset Management

## Quantify the Value of Growth Investments

Provide financial insights to assess the true cost of new initiatives to prevent overspending and maximize impact.

- Align AI and cloud costs with the real value they deliver
- Support enterprise architecture with full financial impact
- Drive even greater value from your investment in ITAM on the ServiceNow platform

## Enhance IT and Finance Alignment

Break down financial data silos between ITAM and Finance to ensure accurate, defensible cost tracking.

- Use a single source of truth with approved financial data from the finance team
- Drill down data that connects back to the GL, the book of record for financial data
- Drive data accuracy across the asset lifecycle

**Nicus FMDB for IT Asset Management is available now on the ServiceNow App Store**

### How it Works

Nicus FMDB for IT Asset Management follows a streamlined, automated process:

1. Import and map asset cost data from the general ledger and other sources
2. Validate financial data and reconcile any discrepancies with ITAM records
3. Allocate costs by asset type, lifecycle phase, and ownership
4. Push financial insights into ServiceNow ITAM workflows and dashboards for real-time decision-making
